How to choose your cosmetic packaging ?

Choosing the right packaging is important for the quality of your product.

Transport and design

	Glass			Plastic			
	Pump flask	Jar	Airless	Pump flask	Jar	Airless	Tube
Light packaging convenient for carrying				X	X	X	X
Decoration	X	X	X	XX	XX	XX	XX

Glass is the ideal packaging, but it is no longer popular nowadays, because it is too heavy (shipping costs), breakable and design isn't much adjustable (dope-dyed for instance). Plastics are now preferred. You should opt for high quality plastics, especially for delicate or aggressive products (skin peeling treatment, some soap). The quality of the plastic is less important for sensitive or less aggressive cosmetics (floral water, micellar water, lotions). You have to consider each plastic in contact with the cosmetic product (overcap, cap, pump...) and not only the container body.

Hygiene

	Glass		Plastic			
	Pump flask	Jar	Pump flask	Jar	Airless	Tube
Ideal for microbial cleanliness conservation	X		X		XX	X

You have to consider the chronical contamination by the user. Jars, where user regularly put his fingers, is the worst alternative for microbial cleanliness conservation. Spray pumps, pump bottles and dropper, which aren't in touch with skin, are preferable.

How to choose your cosmetic packaging ?

Products preservation

	Glass		Plastic			
	Pump flask	Jar	Pump flask	Jar	Airless	Tube
Prevent from oxidation	X		X		XX	X

Some cosmetic products oxidising in contact with the air, mainly greasy products (butter and oil). It goes rancid: the color darkens and the smell is acre (rancid). Packaging which protect from air contamination, like pump bottle or with dropper, are more convenient to avoid axidation than jar or bottle with a wide opening. The ideal packaging is the airless bottle, which doesn't let air contamination goes into packaging.

Our recommendations

	Glass		Plastic			
	Pump flask	Jar	Pump flask	Jar	Airless	Tube
Recommended for oils, serums, gels	XX		XX		XX	X (Except oils)
Recommended for creams	X	X	X	X	X	X
Recommended for lotions	XX		XX			X

Packaging 15 ml

Frosted glass bottle

With pump and aluminium overcap

Recommended for oils, serums and eye contour area

Ref : 0C-AC-FL-0015

White plastic Airless bottle

With flint overcap

Recommended for oils, serums and eye contour area

Ref : 0C-AC-AL-0015

Flint plastic jar

With aluminium cap

Recommended for eye contour area and lip balm

Ref : 0C-AC-PO-0015

Packaging 30 ml

White Airless bottle

With flint overcap

Recommended for oils, serums and eye contour area

Ref : 0C-AC-AL-0030

Frosted glass bottle

With pump and aluminium overcap

Recommended for creams (excluding mask and exfoliating scrub)

Ref : 0C-AC-FL-0030-1

Frosted glass bottle

With aluminium dropper

Recommended for serums and oils

Ref : 0C-AC-FL-0030-2

Glossy brown plastic tube

soft touch effect

Recommended for creams, masks and skin exfoliation

Ref : 0C-AC-TU-0030

Packaging 50 ml

White plastic tube with service cap

set with batch number

Recommended for creams, masks and skin exfoliations

Ref : OC-AC-TU-0050-1

White Airless bottle with flint overcap

Recommended for creams (excluding mask and skin exfoliation)

Ref : OC-AC-AL-0050

Flint glass jar with white cap

Recommended for creams

Ref : OC-AC-PO-0050-2

Glossy brown plastic tube

soft touch effect

Recommended for creams, masks and skin exfoliations

Ref : OC-AC-TU-0050-2

Plastic white bottle with foaming pump and flint cap

Recommended for cleansing foam

Ref : OC-AC-FO-0050

Packaging 150 ml

White glass jar and screwed overcap

Recommended for creams, masks and exfoliations

Ref : 0C-AC-PO-0150

White plastic tube with service cap

set with batch number

Recommended for creams, balms and body exfoliations

Ref : 0C-AC-TU-0150-1

Packaging 150 ml & 200ml

White bottle with white pump and flint cap

(available with pump and flint cap)

Recommended for makeup remover, cleansing gel

Ref : 0C-AC-FL-0XXX-X

White bottle with reducer and screwed aluminium cap

(available with golden cap or flip top)

Recommended for makeup removal water

Ref : 0C-AC-FL-0XXX-X

Packaging 150 & 200 ml

White bottle with self-locking pump

May contain cleansing and body milk, cleansing gel and creams

Ref : 0C-AC-FL-0XXX-6

White bottle with aluminium spray pump and natural cap

Recommended for the floral mist

Ref : 0C-AC-FL-0XXX-7

Packaging 200 ml

Flint soft touch bottle, peach skin effect

With reducer and golden screwed cap
(available with aluminium cap)

Recommended for cleansing and body milk, cleansing gel

Ref : 0C-AC-FL-0200-X

Packaging 250 ml

White plastic jar with cap and screwed overcap

In-house packaging

Recommended for creams, masks and exfoliations

Ref : OC-AC-PO-0250

Packaging 500 ml

Flint bottle with pump

In-house packaging

Recommended for milk and creams

Ref : OC-AC-FL-0500-1

Flint bottle with spray pump

In-house packaging

Recommended for floral mist

Ref : OC-AC-FL-0500-2

Packaging 500 ml & 1 L

White plastic jar

In-house packaging

Recommended for creams, masks and exfoliations

Ref : 0C-AC-PO-XXXX

Packaging 1 L

White plastic bottle with service cap

In-house packaging

Recommended for creams and milk

Ref : 0C-AC-FL-1000
